[2025]

High School

Madhya Pradesh Board, Distt. Panna

[2021]

PROJECTS

Responsive Music Web Player - React JS, Tailwind CSS [🔗](#)

- Developed a Spotify-inspired UI with responsive modern design.
- Implemented audio controls: play, pause, next/prev, volume, progress.
- Dynamic playlist with thumbnails and song info.
- Built reusable React components and custom hooks.
- Designed layout using Tailwind CSS for responsiveness.
- Implemented a responsive search bar that allows users to input album or song names dynamically.

E - Commerce Website - React.js, React Router DOM, React Icons, Bootstrap, Vite [🔗](#)

- Built a responsive and user-friendly e-commerce application using React.js, powered by Vite.
- Used React Router DOM for navigation between pages.
- Implemented product filtering by category and price range.
- Designed real-time search and interactive cart using React state.
- Styled using Bootstrap and React Icons.
- Emphasized component reusability and modular code.
